TRAINING ANNOUNCEMENT

I-300 Intermediate ICS: ICS for Supervisors and Expanding Incidents

Course Description

This course provides description and detail of the Incident Command System (ICS) organization and operations in supervisory roles on expanding or Type 3 incidents. Topics include: ICS fundamentals review, incident/event assessment and agency guidance in establishing incident objectives, Unified Command, incident resource management, planning process, demobilization, transfer of command, and close out.

This course was developed in conjunction with the US Fire Administration (H465) and the Emergency Management Institute (G300). These courses are built on the same lesson objectives and content as the NWCG I-300 course and are interchangeable; they are all NIMS compliant.

Course Objectives

- Describe how the NIMS Command and Management component supports the management of expanding incidents
- Describe the incident/event management process for supervisors and expanding incidents as prescribed by the ICS
- Implement the incident management process on a simulated Type 3 incident
- Develop an Incident Action Plan (IAP) for a simulated incident

Target Group

Type 3 Incident Management Team (IMT) candidates, incident middle management (Unit Leaders, Division/Group Supervisors and Strike Team Leaders), elected officials, line officers, lead dispatchers, Multi-agency Coordination (MAC) members, director heads (public works, fire chief, sheriff), emergency managers and agency representatives

TRAINING ANNOUNCEMENT

I-400 ADVANCED ICS: ICS for Command and General Staff and Complex Incidents

Course Description

This course directs the student towards an operational understanding of large single-agency and complex multi-agency/multi-jurisdictional incident responses. Topics include: Fundamentals review for command and general staff, major and/or complex incident/event management, area command, and multi-agency coordination.

This course was developed in conjunction with the US Fire Administration (H467) and the Emergency Management Institute (G400). These courses are built on the same lesson objectives and content as the NWCG I-400 course and are interchangeable; they are all National Incident Management System (NIMS) compliant.

Course Objectives

- Identify the incident management process of command and general staff functions during complex incidents as prescribed by the Incident Command System.
- Describe implementation of the incident management process on a complex incident.
- Describe the management and coordination process during multiple incidents.

Target Group

Senior personnel expected to perform in a management capacity in an area command/complex incident environment.

Course Prerequisites

Class hosted by Poulsbo Fire Department (Kitsap Fire District 18) and presented by the Kitsap Wildland Team (KWT).

This 4½ day basic class will fully certify you for the National Wildfire Coordinating Group (NWCG) Red Card issued by DNR, Federal agencies, and wildland contractors for basic wildland firefighter (FFT2). This is the basic requirement for wildland strike team and task force call-ups, urban interface mobilization, and wildland contractors. It is the basic training for employment with the US Forest Service, the BLM, and DNR. You must be 18 or have your 18th birthday before April 25th to take the class. You do not have to be a member of a Fire Department to attend.

This class includes a self-paced Incident Command System workbook, extensive classroom training, fire shelter deployment training, map and compass work and plenty of field experience with hand tools. We will have a field exercise day May 3rd. The Work Capacity Test (pack test) will be conducted and certified by your home unit.

Personnel will need to have fire-resistive clothing (cotton or Nomex, but no bunker gear) and lace-up boots for the fieldwork on May 3rd. Bring a magnetic compass for map work. You may want a water bottle/canteen and/or raingear for the fieldwork. Hand tools will be provided. You will get dirty. Meals are not included but there are several places to eat in the area within walking distance.

Class hosted by the Poulsbo Fire Department (Kitsap Fire District 18) and the Kitsap Wildland Team (KWT).

S-230 This three-day class is designed to meet the training requirements of a Crew Boss on a wildland fire and is the first step to qualifying as an Engine Boss. It will start your qualification as a Crew Boss (CRWB) under the National Wildfire Coordinating Group (NWCG) system and will include signatures on many of the items in the Single Resource Boss/Crew Boss/Engine Boss Task Book. This is the minimum qualification level for Engine Bosses (ENGB) on wildland strike team and task force call-ups and for urban interface mobilizations. You do not have to be a member of a Fire Department to attend, but you must be a qualified Advanced Wildland Firefighter (FFT1 Red Card).

S-231 This two-day class is designed to meet the training requirements of an engine boss on a wildland fire. It is the next step to qualifying as an Engine Boss (ENGB) under the National Wildfire Coordinating Group (NWCG) system and will include signatures on many of the items in the Single Resource Boss/Crew Boss/Engine Boss Task Book. Engine Boss (ENGB) is the desired qualification level for the person in charge of a brush truck or structure engine on wildland strike team and task force call-ups and for urban interface mobilizations. You do not have to be a member of a Fire Department to attend, but you must be a qualified Advanced Wildland Firefighter (FFT1 Red Card) and must have completed S-230 Crew Boss.

Both classes include a self-paced Pre-Course workbook, extensive classroom training lectures, and practical applications through group exercises. Classroom units include Preparation, Mobilization, Tactics and Safety, Off-Line Duties, Demobilization, and Post Incident Responsibilities. All “O” items in the Crew Boss section of the Single Resource Boss Task Book can be signed off in this class. The S-230 Crew Boss must be completed to continue into the S-231 Engine Boss class.

Personnel will need to bring their copy of the Fire Line Handbook. The class is primarily in a classroom, so no wildland clothing is needed. There are several places to eat in the area within a half-mile.

If your department uses Training Request forms, submit it now!!

TRAINING ANNOUNCEMENT

S-234 Firing Operations

Course Description

This is an entry-level course providing training in the functional roles and responsibilities connected with firing operations. The course covers, planning, ignition procedures and techniques, and equipment applicable to wildland and prescribed fire. This course also addresses the role of the ignition specialist or firing boss as the organization manages escalation from a non-complex to a complex fire situation.

Note: This course is not intended to qualify or certify any personnel in the use, storage, or transport of any firing device. Rather, it is to provide the potential firing boss a description of available equipment and the requirements specific to each such device.

Objectives

- Describe the role and responsibility of the single resource boss (FIRB), firing and prescribed fire ignition specialist (RXI2) for planning, execution, safety, training, and coordination of an on-incident burn operation.
- Analyze an ignition/firing plan and describe its validity.
- Write an ignition/firing plan to include: ignition method, firing tactics, resource needs, and safety.

Target Group

Personnel desiring to be qualified as firing boss, single resource (FIRB) and resource personnel involved in fire use.

Course Prerequisites

Intermediate Wildland Fire Behavior (S-290).

Course Location and Date ¹

April 06-10, 2009
